PARKER PM

SERVICES LLC

GOVERNMENT PROCUREMENT | RELIABLE SOURCING | PROJECT-DRIVEN EXECUTION

CORE COMPETENCIES

Parker PM Services LLC supports government and commercial procurement requirements by reviewing specifications, identifying sources, coordinating quotations and lead times, and tracking documentation and delivery. Our primary focus is industrial and commercial product sourcing, supported by project and procurement management capabilities.

- Industrial supplies, hardware, tools and specification-based products
- Commercial equipment, facility and material-handling sourcing
- Office furniture, fixtures and office-supply procurement
- Manufacturer and distributor source identification
- RFQ coordination, pricing and lead-time confirmation
- Procurement documentation, logistics coordination and delivery tracking
- Program management and contract/procurement acquisition support

DIFFERENTIATORS

- Procurement managed like a project, with requirements, schedule, documentation and delivery tracked from RFQ through fulfillment.
- Technical project-management perspective suited to specification-driven industrial and commercial requirements.
- Flexible sourcing model across manufacturers, distributors and suppliers rather than dependence on a single product line.
- Dedicated RFQ workflow supporting solicitation details, part numbers, quantities, delivery requirements and attachments.
